RELEASE FOR ADMINISTERING MEDICATION IN SCHOOL

A physician's authorization and a signed parent permit is required in order for school personnel to administer medication to a student. Medication can legally be given only with a physician's written order. Medication must be brought to school in the original prescription container, properly labeled with the child's name, physician's name, name and strength of drug, date of original prescription and directions for administration.

Please consult your physician on the timing of medication as some prescriptions can be written to eliminate the need for giving medication during school hours.

I request that St. Patrick's School personnel administer medication to my child,
